

Women's Alliance for Healthcare Reform

The mission of the Women's Alliance for Healthcare Reform (the Women's Alliance), a priority Living Medicine initiative of the Gladys Taylor McGarey Medical Foundation, is to actively promote a "world of wellness" through women's leadership, education, mentorship, advocacy and networking.

Join us in this important journey to support the Alliance's "Women helping Woman" activities which ensure that healthcare decisions that are made are well informed and sustaining. Women and their families' needs are an ever-present and important part of local, regional and national healthcare conversations, and finally becoming a key player in achieving a "world of wellness".
